

## DT4 Room Thermostats

Reimagined by you

# Main features

- Designed for compatibility.
- Can be installed standalone or as part of an existing system, including conventional and combi boilers.
- Easy-to-read, energy-efficient LED-based display that turns off when the screen is not in use.
- Wired or wireless versions to suit almost every installation.
- Integration with smart devices such as Honeywell Home evohome and the HCC100 underfloor multi-zone controller.
- Backlit, captive touch buttons.
- Built in eco-mode to reduce room temperature for a set time period and help save money and the environment.
- Built in boost mode to increase room temperature for a set time period.

## Installer benefits

- 5-year warranty\*\*\*
- Compatible with a range of heating and cooling systems including heat pumps, zoning and underfloor heating and cooling. Also compatible with a range of hybrid and green heating systems, including heat pumps
- Wiring plate for easy installation
- Backwards compatible with existing Honeywell Home products such as BDR91A and others
- Available in wired, wireless and OpenTherm® versions
- Thermostat design and function improved following installers' feedback\*

## Customer benefits

- 3 colour options to suit any home decor
- Coloured icons give a clear indication of thermostat's status
- Honeywell Home trusted brand
- Slim, unobtrusive design
- Easy-to-read LED-based on/off eco display
- Frost protection built in
- Self-learning TPI fuzzy-logic control
- Reduced maintenance with no batteries required\*\*

\*Resideo survey of 90 installers and 326 customers 2022

\*\* OpenTherm versions only
