Quick Start Guide

Advertising Text

With Eve Energy, control your lights and appliances using your voice or an app, automate them to switch on and off at a preferred time or based on presence, and control them from afar. And with the free Eve app or the energy measurement feature of your chosen platform, track your device's power consumption and benefit from more insights.

USPs: Matter & Thread | Track power consumption | Voice control |
Easy installation & set up | Highest data privacy

Recommendation for Placement

- Accessories for: Apple Home / Samsung SmartThings / Amazon Alexa / Google Home / Home Assistant
- Smart Home Products
- App-Enabled Technology
- Connected Home & Smart Living
- Energy Saving & Comfort at home

Selling Points

- **App & voice control**
- **Automate** – Switch on and off automatically at a preferred time, based on presence or when motion is detected. Create scenes to make multiple connected devices work in sync.
- **Control from afar for peace of mind** – Control your connected devices from anywhere, or set automations to switch on and off when you're not around.
- **Track power consumption** – Monitor usage and projected costs and gain deeper insights with the free Eve app or the energy measurement feature of your chosen platform.
- **Easy installation** – Get up and running in a flash with quick & easy set up / TÜV-certified
- **Always in reach** - Benefit from a more responsive, reliable and energy-efficient smart home thanks to Thread technology / enhances the stability and reach of your Thread network.
- **Everybody is in control** – Matter-enabled to let the entire family control your home, no matter if they use an iPhone, Android device or call upon Alexa, Siri or Google Assistant.
