Recommendation for Placement

- Apple accessories
- Smart home products
- App-enabled accessories
- Consumer electronics

Selling Points

Eve Thermo Control (Matter) - Temperature Sensor & Controller for Eve Thermo (Matter)

- Automatically optimize your heating based on the temperature at your favorite spot in the room: Eve Thermo Control, in combination with Eve Thermo, will handle the heating control – conveniently, efficiently and accurately.
- Control all your radiators in the room with a single Eve Thermo Control. Eve Thermo Control can control up to five Eve Thermo set up as a group.
- Set the temperature directly on the device, and view current temperature, humidity and heating status on the e-ink display.
- See room climate data as graphs in the Eve app.
- Six-month battery life and fast charging via USB-C.
- Cutting-edge connectivity with Matter and Thread. Requires Eve Thermo (4th generation) upgraded to Matter, and Apple TV 4K (2nd gen / 3rd gen 128 GB), HomePod (2nd gen), or HomePod mini
- 100% Privacy: No Eve cloud, no registration, no tracking. Strictly local intelligence and direct communication without bridge or cloud dependency.

Target Group

- Smart home customers
- Builders
- Technology enthusiasts
- iOS users
