T14 Pro

Wet and Dry Vacuum

The T14 Pro delivers smoother, more effortless cleaning with upgraded smart performance. Powered by the GlideWheel™ Power System, it uses intelligent algorithms to detect movement and provide responsive power assistance for easier maneuverability. With a 9.85cm body that lies flat at 180°, it dives deep under furniture while delivering 25,000Pa suction to power through every mess. After cleaning, one press refreshes the brush with 95°C high heat—so every step feels effortless.

Highlights

Built for Effortless Deep Reach and Smooth Glide

T14 Pro's ultra-slim 9.85cm* body lies flat while maintaining full performance, reaching dust, hair, and pet fur hidden deep under furniture—no need to move a thing. Meanwhile, the GlideWheel™ system actively assists your maneuvering, delivering smooth handling with less arm strain.

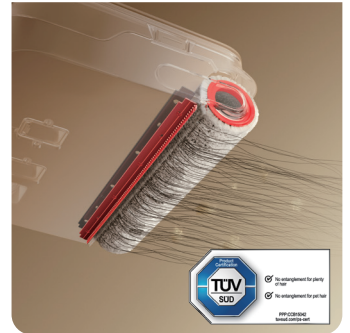

Powerful Suction & Auto Mixing to Tackle Every Mess

T14 Pro utilizes 25,000Pa* suction to tackle heavy debris effortlessly, drawing out dirt from hidden corners. Its dirt detection system is 5× more sensitive*, automatically adapting to different levels of grime and adjusting suction and cleaning solution for smarter, more efficient cleaning.

95°C Self-Cleaning Keeps Brush Fresh & Odor-Free

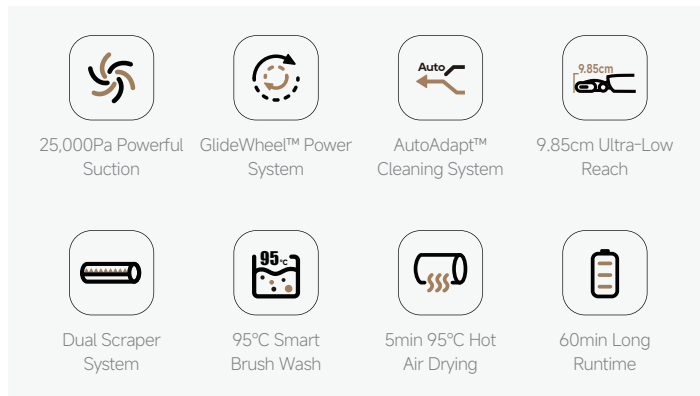

The smart 95°C* hot wash detects dirt levels and adjusts water volume for efficient cleaning of the brush and base with 100% coverage*. Meanwhile, the 95°C* full-cycle drying helps reduce odor, leaving the brush fluffy and ready for the next use.

100% Tangle-Free & Streak-Free with Dual Scrapers*

The dual-scraper system features a TangleCut™ 2.0 scraper to cut through dense, mixed hair and fur, along with a flat resilient scraper that wipes away water residue for faster drying and streak-free floors, saving you from manual detangling and repeated wiping.

Features

Specifications

Rated Power	400W
Main Body	5.4kg
Dimension (Main Body)	275 x 273 x 1,171mm
Dimension (with Charging Base)	314 x 335 x 1,234mm
Suction Power	25,000Pa
Battery Capacity	6 x 4,000mAh
Charging Time	approx. 4 Hours
Max Floor Washing Time	60min (Eco Mode) 40min (Smart Mode)
Floor Washing Modes	Smart/Turbo/Suction/Eco
Clean Water Tank	1000ml
Used Water Tank	500ml
Cleaning Solution Box	150ml
Dirt Detection	Yes (Multispectral Sensor)

*9.85cm: Based on our in-house lab data.

*25kPa suction: Based on GTT Surface Cleaning & Air Treatment Laboratory.

*5X: Based on our in-house lab data, the multispectral dirt detection is 5 times more sensitive and can recognize a wide range of dirt and stains compared to the thermal detection of previous models and the blue light detection of other brands.

*95°C, 100% coverage: Based on our in-house lab testing conditions. Actual performance may vary.

*100% tangle-free: T14 Pro cleaned approximately 2,500 coarse pet hairs and 60,000 soft pet hairs without any tangling. Tested by TÜV SÜD (China) Shanghai Branch. Report No.: 704012605163. Actual results may vary.

*Streak-Free: Based on our in-house lab data.
